

AUSTRALIAN ASSURANCE PROGRAMS & INTEGRITY SYSTEMS

Australia has **world leading quality assurance and integrity systems that underpin all JBS Australia beef. These programs and systems cover the whole supply chain from on farm, to feedlot and processing, providing assurance at every stage of the process.**

These programs cover:

- How the animals are raised and managed on farm.
- What treatments and farm practices are used including crop production and chemical use.
- The movements, traceability and biosecurity of livestock, animal welfare, food safety, product quality and product specification standards.

These programs and systems, along with the Quality Assurance Management Systems of JBS Australia, enable us to produce industry leading shelf life across all of our beef brands.

ANIMAL WELFARE

Livestock Production Assurance

On farm livestock management and animal health assurance program. Livestock producers agree to abide by the LPA Rules and Standards. JBS Australia only sources cattle from LPA accredited producers.

Independently audited feedlot management, animal health and quality assurance program. All JBS Australia Feedlots are NFAS accredited

TRACEABILITY

National Livestock Identification System

Australia's electronic system for the identification and lifetime traceability of cattle. NLIS is underpinned by State/Territory legislation, which forms the regulatory framework for the system, NLIS Ltd is ISO9001 certified. All livestock processed by JBS Australia have lifetime traceability under the NLIS.

Communicates the food safety and treatment status of every animal every time it moves between properties, to saleyards or processors. NVDs are a legal declaration that are key to Australian red meat traceability and market access.

ACCOUNTABILITY

Australian Government
Department of Agriculture,
Fisheries and Forestry

Australian Government Export inspections and approved programs. The Australian government overseas the certification and approval of our export standards. JBS Australia ensures that all standards set by government regulations are not only met but exceeded.

Independent agribusiness audit, inspection and certification service who develops and governs Australian Meat Standards. All JBS Australia processing plants are AUS-MEAT accredited, all beef carcasses processed out of JBS Australia facilities are AUS-MEAT graded.
